“At Designers Guild, it has always been our passionate goal to give people the confidence to live with the colours, textures and patterns that we know, will enrich their lives. Our accessories collections are designed with this in mind – to offer you the freedom to explore your own sense of style and individuality. This season we celebrate enigmatic new florals, the art of geometry and exquisite new textures in an expressive palette of rich, resonant shades – all inspired by the new ideals of nineteenth century aesthetes, artists and thinkers who romanticised decorative beauty.”
